

CMSI 402 Project Status Sheet
Spring 2020

Name:	<u>Annie Flora</u>	Date:	<u>02/24/2020</u>
Project:	<u>USchedule</u>	Period Covered:	<u>02/03/2020 - 02/24/2020</u>

Accomplishments since last report:

- Requirements Document Completed
- Had a meeting where mockups were made for the scheduling output page
- Completed each part of the algorithm: block, ward, and shift
- Had two meetings with Dr. Forney where we discussed the algorithm, output formatting, and ways to work around our database issues
- Made an LMU Build account
- Software Development Plan completed

Scheduled tasks to be done by next report:

- Discuss with Dr. Jones how she would like our application to be delivered
- Work on integrating the algorithm parts together and output the correct format
- Researching the best ways to output a JSON object into the correct schedule format
- Work on front-end scheduling page components
- Software Design Description Document (due Week 8)
- Start making our new database with LMU Build
- Software Test Plan/Test Procedure Document

Noteworthy risks

- Find a time to meet with Dr. Jones around her busy schedule
- Decide if we would like to implement a login page and discuss pros and cons
